(Clarksville, TX) – Focused Care at Clarksville, one of 23 long term care communities throughout Texas operated by Focused Post Acute Care Partners (FPACP), formally introduced its new brand of ownership to Clarksville today with a ribbon cutting sponsored by the Historic Red River County Chamber of Commerce and by hosting town citizens to a meet and greet with the caregiving team members.

“It is important for our Clarksville community to know our mission, and to see our new culture of team leadership and personalized care,” said Ruth Brown, facility administrator for Focused Care at Clarksville. “Focused Care aims to provide a high quality care choice for short term rehab and long term care and we are excited to show the Clarksville community how we are doing that.”

Guests will tour the transitional care unit of suites, meet the therapy staff as well as the facility’s Medical Director. Agencies for home health and hospice were also invited to tour as well as family members of the residents.

Focused Care at Clarksville staff introduced the company mantra found on its building and lobbying signs: *It Takes a Minute to Change a Life*. Focused Care is dedicated to recruiting staff whose mission aligns with the company’s – and that is to meet the expectation of excellence every day in delivering care to residents.

FPACP was formed in 2016, currently has 1500 employees providing skilled nursing care to an estimated 1300 residents throughout Texas. Focused Care communities can be found largely in rural regions in the Lone Star State with smaller populations and older communities.

“We are providing patient-centered care tailored to individual needs and we are mindful that whether a resident is short or long stay in our community, we want their experience here to be meaningful,” said Mark McKenzie, CEO and founder of FPACP. “Focused Care has chosen to provide care in communities that adhere to the values we embody as a company. We believe in dignity, respect and excellence.”

About Focused Post-Acute Care Partners:

FPACP is a Texas-based skilled nursing care company with 20 facilities located largely in rural and small towns throughout the state. FPACP’s mission is to invest in communities typically with fewer resources than metropolitan areas by providing state-of-the-art long term care services while instilling the expectation of excellence in skilled nursing care. The company’s conviction, that It Takes a Minute to Change a Life, is what drives each team member and FPACP’s overall business objectives.
